

CHAPTER V

CONCLUSION AND SUGGESTION

In this chapter, the writer presents the conclusion and suggestion based on the result of the research and development.

5.1. Conclusion

Based on the explanation on the previous chapter, the writer concludes that are three steps in writing a good video script. The steps written by Sukmadinata (2005) and the steps followed the stages written by Friedman (2006). The first step is preliminary study, this step followed the stages by Friedman. They are background research and investigation, concept, treatment, and first draft. The second step is model development, this step followed the stages by Friedman is revision. The writer did limited testing to make product developed. There were three aspects tasted by three experts in limited testing. The aspects were about the content of video script in Indonesian script, Indonesian script for subtitle in the video, and also grammatical errors, diction and coherence in English script. Then, the writer revised the video script. After that, the writer did wider testing, the writer asked the comments and suggestions from the two expert, first expert for checked the content of video and the second expert checked the grammatical error in the script. The last step is Final product testing connected with final draft. This is the last stage of research and development modification steps, it consists of pre-testing, revision and dissemination. Pre-testing is the last revising steps from the Wider testing, while dissemination is the writer trying to promote the product to society. Unfortunately, the writer will not do the pre-testing, revision and dissemination steps because of the lack of cost, time, skill and legality.

There were some advantages and disadvantages of the steps. The advantages such as, the steps are relevant, so the writer easily implemented steps that will be

done. The steps easily enforced because when the writer wrote the script, the writer more understood in developing the script. The writer also found disadvantages when implemented the steps. The step consisted of six stages, so the writer took long time and difficult to rise the idea of paragraph in script development.

5.2. Suggestion

In this final report, the writer suggests for the next Future, in writing the script or subtitle video, they must pay more attention to the elements in the script, the stages in making the script so that the message that will be conveyed by video and script will be understood by the viewers. In addition, researchers can improve this research to be better, study more sources, references and better preparations related to research.
