

CHAPTER V

CONCLUSION AND SUGGESTION

5.1. Conclusion

Taman Pancasila had the potency as a new tourism destination in Ogan Ilir South Sumatera. In Taman Pancasila, there were five attractions. They were photo spots, spots for exercise and fitness, mini vehicle rents, some foods, and children's playground. For accessibility there were two road options to Taman Pancasila. The first was through Jalan Lintas Sumatera. The second alternative was through the Palembang-Indralaya toll road. While for transportation, visitors could use private vehicles such as cars or motorbikes as well as public transportation such as buses and travel. There were several infrastructures for tourism activities near Taman Pancasila such as terminals, energy sources, communication networks and health facilities. There were only two amenities that could be found near Taman Pancasila they were lodging and restaurant. For ancillary or community, Taman Pancasila was managed by Pemerintah Kabupaten Ogan Ilir. The facilities available in Taman Pancasila include parking areas, and trash bin. Taman Pancasila had fulfilled six requirements for being a tourism destination that covered attraction, accessibility and transportation, infrastructure, amenities, ancillary, and public facilities. Those six aspects were interrelated each other, so it could be concluded that Taman Pancasila had potency as a new tourism destination in Ogan Ilir South Sumatera.

5.2. Suggestion

The writer gives some suggestions in order to make Taman Pancasila be more potential as a tourist destination as follows: The management of Taman Pancasila can create events to attract more tourists to come, should add new facilities such as Wi-Fi. Besides that, it is necessary to carry out promotions so that Taman Pancasila can be widely known.
