

CHAPTER V

CONCLUSION AND SUGGESTION

This chapter contains conclusion and suggestion based on the result of the research and development

5.1 Conclusion

According to the description in the previous chapters, the writer concludes that there are three steps to write video script of Gending Sriwijaya dance as Traditional dance of Palembang. The stages written by Friedmann (2014) are consistent with research and development by Sukmadinata (2005). The first step in the Preliminary Study can be in conjunction with the concept of script development by Friedmann (2014). Ideas for background research and research, concept, treatment and first draft. The second step is the model development performed with revision. The writer has done limited testing to make the product better. There were three features that tested by three experts in a limited testing. Features included content of video script, confusing words and sentences, monotone words used in Indonesian script, and also grammatical errors, spelling, and translation in English script. After that, the writer updates the video script. Next, the writer did wider testing. The writer asked for ideas and suggestions from two experts about the content of the script to improve the video text. The final step is the final product test linked to the final draft. This is the final stage of the research and development, consisting of of pre-testing, revision and dissemination. Pre-testing is the final review process from wider testing, while dissemination is the writer trying to promote the product in the community. Unfortunately, the writer will not take pre-test, review and distribution steps due to lack of cost, time, skill and legitimacy. Therefore, the writer stop the work until wider testing and consider the revision of wider testing as the final product.

5.2 Suggestion

In this final report, the writer would like to suggest the local community leaders and the government to promote and introduce palembang traditional arts, especially traditional dances through social media such as youtube, instagram and so on, to inform outsiders that palembang has a unique and diverse culture and arts. In addition, subsequent future researchers can improve this research, learning more resources, indicators and better arrangements related to research.
