Maybe I made a mistake yesterday, but yesterday's me is still me. I am who I am today, with all my faults. Tomorrow I might be a tiny wiser, and that's me, too.

These faults and mistakes are what I am, making up the brightest stars in the constellation of my life. I have come to love myself for who I was, who I am, and who I hope to become – RM

ABSTRACT

Designing a Coloring Book about Palembang Tourism Destinations

(Varadilla Dwi Ananda, 2021: 50 pages, 37 figures, 7 tables)

The purpose of this research is to find out how to design a coloring book about Palembang tourism destinations. It was done to create a coloring book that intended to introduce Palembang tourism destinations to children. This research was conducted using Sukmadinata's (2019) in 2 stages preliminary study and product development by simplifying Research and Development model. In preliminary study, the writer made the model draft of line art, colored pictures, and descriptive text of 10 Palembang tourism destinations from the information that the writer got through literature study and interview. In product development, nine experts commented in the field of English and Indonesian language about grammar and vocabulary, and graphic design of the model drafts. It was tested twice in limited field testing and wider field testing. The findings revealed that there are some similarities and differences of the suggestions and comments from the experts related to the literature reviews. This coloring book is hoped to develop children's coloring skill and to give them knowledge about Palembang tourism destinations. It is suggested to further researchers to do the last stage in research and development method which is final product testing and dissemination to assess the effectiveness of this coloring book.

Key words: *coloring book, Palembang tourism destinations, research and development*
