

## **CHAPTER V**

### **CONCLUSION AND SUGGESTION**

In this chapter, the writer presents conclusion and suggestion after conducting the research.

#### **5.1. Conclusion**

From the explanation in the previous chapters, the writer concluded that there were several steps in writing a video script of Via Crucis Sukamoro by using Plomp (1997) model. There were Preliminary investigations, designing, realization / construction, testing evaluating and revision, the last one is implementation. After the writer did research with those steps, the writer know that the video script can be used as a guideline for tourists and visitors to find information about Via Crucis Sukamoro. This video consists of information about Via Crucis Sukamoro such as the location, the situation, the attraction, the activities, and the collections. The duration of the video is around 5 minutes.

#### **5.2. Suggestion**

Based on the research the writer did, she would like to give suggestion to the future researcher and student of English Department at State Polytechnic of Sriwijaya. For future researcher, the writer suggested to conduct the research and development much better than the writer had done, especially in implementation stage which is in uploading the video to social media as early as possible. Moreover, the writer also suggested the student of English Department at State Polytechnic of Sriwijaya to write a video script about other tourism destinations in Palembang as a media to promote the place.
