

## CHAPTER V

### CONCLUSION & SUGGESTION

#### 5.1 Conclusion

Kemaro Island is a little island on the Musi River Delta, located about 6 km from Ampera Bridge. We can reach this island by using water transportation such as Ketek & Speed Boat from dock of Benteng Kuto Besak (BKB). It is an island that has a beautiful and capable of satisfying tourist destination for travelers within or outside Indonesia. It can be promoted to become a tourism object because in this complex, there are so many historical graves and as preserve culture. Besides that, it can be religious tourism for the people who want to visit these historical graves or just for sightseeing and praying for hoping something.

Kemaro Island is one of tourism destination that has so many potencies but it doesn't supported by some factors such as tourism product, attractions, amenities, accessibility, hospitality that do not fulfill the standard quality of tourism destination itself. Kemaro Island is very comfortable, clean and attractive as a tourism destination, it provides natural scenery and wonderful atmosphere for the tourists, there are small cottages for tourists to rest and enjoy the view, it is a place for recreation, spiritual and historical tourism, but it is not provide interesting souvenirs for the tourists, the tourists are satisfied with the amenities of Kemaro Island especially for the toilets but the tourists unsatisfied with the amenities of Kemaro Island especially in a place for worship for the tourists, they aren't satisfied with the attractions that provided by Kemaro Island.

#### 5.2 Suggestion

From the above conclusion, the writer suggests that:

1. The Governments and Tourism Organization of Kemaro Island should provided its own souvenirs for the tourists and it has a character that shows the cultures and uniqueness of Kemaro Island itself, it makes Kemaro Island easy to remember, for example, they make a miniature of pagoda that become a symbol of the island and it will sell to the tourists, it

increases income for them and it makes Kemaro Island has something special that can bought by tourists to their home.

2. The Governments and Tourism Organization of Kemaro Island should keep the cleanliness and the hygiene and sanitation of the island by using checking area every hour.
3. The Governments and Tourism Organization of Kemaro Island should increase and provide some attractions and activities for the tourists while on the island, for example, as a recreation area they add outbound as one of activity.
4. The Governments and Tourism Organization of Kemaro Island should complete and increase the standard of facilities and accessibility for the tourists, they should provide what the tourists needs especially in the facility of foods and drinks, they should build some worship places because Kemaro Island not only visited by Buddhist only but all of people that have different religion, they should renovate and make some cottage again.
5. The Governments and Tourism Organization of Kemaro island should giving training to the tour guides about tourism in order to increase and develop the knowledge of the guide in tourism.
6. Palembangnese should keep and care the tourism heritage in Palembang, especially Kemaro Island.
