

CHAPTER V

CONCLUSION AND SUGGESTION

5.1. Conclusion

The writer concludes that there are three steps in writing video script of Ayek Pacar. The steps by Friedmann (2006) were in line with the stages of Research and Development method by Sukmadinata (2005). The first step is Preliminary Study can be cooperated with background research and investigation, concept, treatment and first draft. The second step is Model Development that conducted with revision. The writer did limited testing, there were two aspects tested in limited testing, which were content and language of the video script especially its grammar. Next is wider testing to make product development, which there were two aspects being tested. The aspects were language including grammatical error and diction, content arrangement. The writer asked the comment and suggestions from the expert. The last step is Final Product testing which connected with Final Draft. This is the last stage of research and development, it consists of pre-testing, revision and dissemination. Pre-testing is the last revising steps from Wider testing. Unfortunately, the writer will not do the pre-testing, revision and dissemination steps because the lack of cost, time and legality.

5.2. Suggestion

Based on the research the writer did, the writer would like to give suggestion to the future researcher and student of English Department at State Polytechnic of Sriwijaya. For future researcher, the writer suggested to conduct the research and development until final product testing and dissemination. In addition, researchers can improve this research to be better, study more sources, references and better preparations related to research. The writer also suggested

the student of English Department at State Polytechnic of Sriwijaya to design a video script about other tourism destinations.
