**(Andalas Murwani Pangesti, 2022: 49 pages, 5 tables)**

This purpose of writing this study is to find out the procedure to write the script of 3D Stable as an equestrian tourism attraction in Palembang. In this final report, the writer used research and development method by Sukmadinata (2015). The method consists of three steps: preliminary study, model development, and final testing. The writer linked these steps to the seven steps of writing script by Friedmann (2014). The data were gathered by doing literature study and field survey, namely the observation and interview. Based on the research findings, the writer made the video script about 3D Stable as an equestrian tourism attraction in Palembang, which was developed through five steps in write script, including background research and investigation, concept, treatment, first draft, revision, and final draft. The scripts was designed by the writer and then it was given to the experts in Indonesia language, English language, and content script through limited and wider tests.
