

CHAPTER V

CONCLUSION AND SUGGESTION

5.1. Conclusion

In designing the script of the video script of Oziel Amazing Garden the writer conducted five steps in designing a promotional video script for Oziel Amazing garden. The first step was preliminary investigation, with the ideas; finding an idea, creating a brief plan, and researching. The second step was designing, with the ideas; choosing material, planning the messages, organizing a structure, and drafting a script. The third step was realization/ construction with the ideas; creating a storyboard. The next step was testing, revision, and evaluation which was related to revision. The writer did limited testing to validate and develop the product. There were two aspects tested in limited testing, which were content and language of the video script especially its grammar. The next testing was wider testing, the aspects being tested was language including grammatical error. The last step was implementation which related to the final draft. The writer considered the result from wider testing as the final product due to the writer's limited time of conducting the research.

5.2. Suggestion

Based on the research the writer did, she would like to give suggestions to the future researchers and students of the English Department at State Polytechnic of Sriwijaya as follow:

1. For future researchers, the writer suggested improving this research for further development, especially in carrying out all research methods.
2. For student of the English Department at State Polytechnic of Sriwijaya to design promotional video script about other natural tourism destinations that have good potential.
