

CHAPTER V

CONCLUSIONS AND SUGGESTIONS

5.1 Conclusions

After the writer analyzed the data, the writer could conclude that schematic structure has eleven components. The components are title, opening prayer, address, gambit, transition, relation to scripture, translation, explanation, evaluative comment, closing prayer. Then, the writer found that in the schematic structure all the sermons are used the similiar structure because the structure is right to use in Friday sermon. In case of communicative purpose the writer found that the communicative purpose components in the sermon are found in all the samples of sermon.

5.2 Suggestion

Based on the explanation above, the writer suggests to everyone who wants to prepare Friday sermon, it is better to use schematic method because according to the research all the sermons used all the components in schematic method. Then, the writer suggests to English Department State Polytechic of Sriwijaya students to know the steps in arranging the material of sermon because it is useful to improve the communication skilil and speaking skill in area of public speaking.
