## MOTTO AND DEDICATION

“[Moses] said, 'My Lord, expand for me my breast [with assurance], And ease for me my task, And untie the knot from my tongue, That they may understand my speech.”

(QS. Thaha verse 25-28)

“Antes de dejar de fumar, recuerde por qué empezó.”

(Before you stop, remember why you started).

(Anonim)

I dedicate this to:

- My Parents
- My Family
- Support Systems
- Lecturers of the Department of Informatics Management
- Comrades of 8 MIG MSU
- Alma Mater

## ABSTRACT

This final project report outlines the implementation of a smart card payment system for primary school students, aiming to enhance convenience, financial education, administrative efficiency, and parental involvement. The proposed system eliminates the need for cash transactions by enabling students to make purchases for meals and other items quickly and easily using their smart cards. It also provides parents with access to information on their child's buying patterns at the school canteen, allowing for monitoring and guidance toward healthier eating choices. The system promotes financial education and responsibility among students, facilitates transparent tracking of purchases, and improves communication between the school and parents. The proposal highlights the significance of the system in terms of convenience, financial education, transparency, and reduced cash handling risks, ultimately benefiting the school community as a whole.

## ACKNOWLEDGEMENT

First and foremost, I would like to express my deepest gratitude and thanks to Allah, the Almighty, for granting me the strength, wisdom, and guidance throughout from the beginning of my academic career to this degree level. I am truly grateful for the blessings and opportunities provided.

I would also like to extend my heartfelt appreciation to my parents for their unwavering support and encouragement. Their constant belief in my abilities and their valuable insights have been instrumental the beginning of my academic career to this degree level. Their love and encouragement have been a constant source of motivation, and I am truly grateful for their presence in my life.

Furthermore, I would like to express my sincere appreciation to all the individuals who have played a significant role in the development of this proposal. I am grateful to my Final Year Project supervisor, Madam Safwati Binti Ismail and Sir Meivi Kusnandar as my Tutoring Mentor who provided valuable guidance, feedback, and suggestions to enhance the concept of the smart card payment system. Their expertise and commitment to improving the educational experience have been invaluable.

I would also like to extend my gratitude to my family, friends and colleagues who have provided support and assistance throughout from the beginning of my academic career on this degree level to the proposal's preparation. Their willingness to lend an ear, offer constructive criticism, and share their knowledge has been immensely helpful in refining the ideas presented.

Lastly, I would like to acknowledge the contribution of all those who have supported me directly or indirectly, whether through discussions, feedback, or any form of assistance. Their involvement and belief in the potential of the primary school student smart card payment system have been instrumental in shaping this proposal. I am truly grateful for their time, effort, and commitment to this endeavor.
