

CHAPTER V

CONCLUSIONS AND SUGGESTIONS

5.1 Conclusions

There are fourteen programs that should be done by the government in developing *Goa Putri*. However, there are three programs that have not been done by the government of Kabupaten Ogan Komering Ulu. They are developing facilities and amenities of *Goa Putri*, improving the facility of home stay and recruiting the new staff to improve the quality of human resources. These happen because of the lack of fund to provide the facilities and amenities in *Goa Putri*, and the lack of human resources who have skills and knowledge in tourism industry. Three programs that has not been done probably will be implemented in 2015.

5.2 Suggestions

The writer suggests that *Dinas Pemuda Olahraga Kebudayaan dan Pariwisata* Kabupaten Ogan Komering Ulu should improve the fund in providing the facilities in *Goa Putri* and improve the staff as an organizer of *Goa Putri* because the number of human resources in tourism department is still minimal. Besides, this is the fourth year of the government in developing *Goa Putri* so that the government still have one year to achieve the aim of the programs that have not been done.
