Motto and Dedications

“Never give up, always stand up, for future”

Dedicated to :

- My beloved father and mother
- My grandmother and grandfather
- My beloved brother and sister
- My Special Mate
- My friends at English Department

ACKNOWLEDGMENT

At last, the final report is completed. Therefore, the writer wants to thank my only God, Allah swt who has given chance for me to live, to work, and to finish this report. From all participants who have helped me to finish this final report, I would like to say thank you very much. Especially, the writer would like to thank to:

- 1 Director of State Polytechnic of Sriwijaya, Mr. RD. Kusumanto.;
- 2 Head of English Department, Dra. Tiur Simanjuntak, M.Ed. M.;
- 3 My advisors who have help me a lot and patient to teach me, Dra.Sri Endah Kusmartini, M.Pd. and Iskandar Rosyidin S.Pd, M,Pd.;
- 4 All Officers in UPTD TPKS South Sumatra and Locket Officer of Bukit Siguntang who have given information concerning my research.;
- 5 My father and mother for their spirit and advice to finish this final project report;
- 6 For my sister, Ulik, and my brother, Rio;
- 7 My Special mate who never gives up to give me spirit and support;
- 8 My Classmates of 6BB.

The writer believes that this final report can give a great contribution not only for the juniors in English Department but also for the development of Bukit Siguntang tourism object.

Palembang, July 2014

The Writer

PREFACE

This final report is written to fulfill one of the requirements of completing D3 program at English Department of Final Report subject at State Polytechnic of Sriwijaya. The title of my final project report is The Making of Site Plan of Bukit Siguntang Tourism object. One of the weaknesses of this tourism object is the lack of direction map that can show the direction and location of each area in that tourism object. Previously, there was a site plan in Bukit Siguntang which was made in 1995. Unfortunately, there were many changes there. Therefore, the need to design and make new site plan is very urgent. Moreover, the lack of that site plan makes them difficult to find out the exact location of the toilet or other facilities they need urgently. It is believed that the availability of the site plan with its detailed information will give much help for the visitors. Therefore, the researcher tried to make the site plan of Bukit Siguntang Tourism Object

The final report starts from introduction which describe about the background, problem formulation, purpose and benefit. Next it follows with the literature review which describes about the history of bukit Siguntang tourism object, facilities needed by tourism object, the importance of site plan in tourism object, definition of site plan, materials and tools needed to make the site plan, and the procedure of making site plan. After that, it continues with the project design, result and discussion. Finally, it describes about the conclusion and suggestion.

Palembang, July 2014

The Writer

ABSTRACT

[Type the document title]

(R Randy Afriansyah, 2014, 36 pages, 35 pictures, 4 tables)

As one of the famous cultural heritage tourism objects in Palembang, the authority of Bukit Siguntang Tourism Object believed that the availability of good facilities and infrastructure were very needed to support the availability of this cultural heritage tourism object. In line with this, the authority has tried hard to prepare those things for the visitors. One of the weaknesses of this tourism object is the lack of direction map that can show the direction and location of each area in that tourism object. Previously, there was a site plan in Bukit Siguntang which was made in 1995. Unfortunately, there were many changes there. Therefore, the need to design and make new site plan is very urgent. Moreover, the lack of that site plan makes the visitors difficult to find out the exact location of the toilet or other facilities they need urgently. It is believed that the availability of the site plan with its detailed information will give much help for them. Because of that, the writer tried to make the site plan of Bukit Siguntang Tourism Object by using Microsoft office Visio, AutoCAD and adobe Photoshop Lightroom. Because of the time and budget limitation, the writer did not complete the site plan with the scale. It is hoped that the future researcher will continue this project with the scale.
