HASIL WAWANCARA

| No | Pertanyaan | Jawaban |
|----|---|--|
| 1. | Bagaimana sejarah puskesmas sukarami ini berdiri bu? | Puskesmas Sukarami berdiri pada tahun 1990 dan hingga saat ini masih beroperasi memberikan pelayanan kesehatan tingkat pertama sesuai dengan fungsinya sebagaimana yang tercantum dalam Buku Pedoman Kerja Puskesmas. Luas Gedung Puskesmas kira - kira 400m ² memiliki 16 ruangan yang memadai untuk memberikan pelayanan kesehatan. Luas areal keseluruhan kira-kira 800m ² terdiri dari gedung puskesmas dan perumahan untuk paramedis. |
| 2. | Bagaimana sistem persediaan yang diterapkan pada puskesmas sukarami saat ini? | Puskesmas Sukarami melakukan persediaan pada gudang obat, dimana pengambilan obat dilakukan apabila bagian apotek terdapat kehabisan obat. Adapun sistem persediaan pada Puskesmas Sukarami adalah masih dilakukan secara manual dengan pegawai mencatat semua obat yang tersedia di puskesmas tersebut dikertas kemudian diketik menggunakan <i>Microsoft Excel</i> . |
| 3. | Adakah kendala yang terjadi dalam sistem persediaan yang diterapkan saat ini? | Meskipun sudah terkomputerisasi tetapi masih ada kekurangan apabila pegawai membutuhkan data obat tertentu mereka harus mencari data obat satu persatu dari sekian banyaknya data obat |

| | | |
|----|---|--|
| | | <p>yang tentu saja akan memakan waktu yang cukup lama. Hal tersebut dianggap masih kurang efektif karena Microsoft exel tidak memiliki database, sehingga kemungkinan data hilang atau rusak. Obat yang ada di Gudang juga sering mengalami kehabisan atau bahkan kelebihan sehingga menyebabkan banyak obat kadaluarsa.</p> |
| 4. | <p>Menurut ibu, apakah sistem persediaan menggunakan komputer penting kelancaran oprasional perusahaan?</p> | <p>Menurut saya penting, apalagi di era sekarang ini semua serba teknologi. Dan informasi yang dihasilkan juga lebih efisien dan akurat, sehingga dapat membantu kelancaran Puskesmas Sukarami.</p> |
| 5. | <p>Sistem seperti apa yang ibu inginkan?</p> | <p>Tentunya system yang dapat mengatasi kendala yang kami sebutkan tadi.</p> |
| 6. | <p>Apakah ibu bersedia jika sistem yang dirancang berupa sistem berbasis website? Dengan adanya sistem ini dapat membantu ibu dalam proses input data sehingga dapat mengontrol informasi yang berkaitan dengan persediaan?</p> | <p>Saya setuju, karena di Puskesmas Sukarami ini juga sudah tersedia computer dan beberapa pegawai yang dapat mengoprasikannya.</p> |
