A screenshot of the NaturaWatch web application interface. The left sidebar contains navigation links for Home Jeramba, Home Sekanak, Activities, Environment, Account Pages, Profile, Edit Profile, Change Password, and Logout. The main area displays real-time environmental data in cards: LOKASI (Taman Jeramba Karang), KELEMBABAN (97), KUALITAS UDARA (96), SUHU (27), LEVEL AIR (72), STATUS HUJAN (tidak hujan), and INTENSITAS CAHAYA (945.00). To the right is a live video feed of the monitoring site at night, showing palm trees and a building with graffiti.
