

CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusion

From the observation and consultation that have been done by the writer, it can be concluded that Taman Purbakala Kerajaan Sriwijaya Palembang can be serve as agro tourism because it has many vacant land that can be used as a place to plant many kinds of vegetable, fruit and medical plant. In order to gain more visitors, this innovation is very suitable. In addition, this is also can be used as a media to reduce unemployment by utilizing the surrounding communities as workers to treat a wide variety of plants that have been planted, also the wide area at Taman Purbakala Kerajaan Sriwijaya itself.

B. Suggestion

In presenting information about the innovation for developing Taman Purbakala Kerajaan Sriwijaya Palembang in detail, the writer has made a prototype design that can be realization by government and Taman Purbakala Kerajaan Sriwijaya Palembang manager.

From explanation above, the writer suggests that:

1. The government should be able to see the potency of Taman Purbakala Kerajaan Sriwijaya as agro tourism that can be provide a job field to the surrounding communities.
2. The government is expected to support a development Taman Purbakala Kerajaan Sriwijaya Palembang.
3. The manager of Taman Purbakala Kerajaan Sriwijaya Palembang should be able to utilize the vacant land around Taman Purbakala Kerajaan Sriwijaya area.
