ACKNOWLEDGEMENT

I would like to sincerely thank my supervisor, Madam Nor Takrim Binti Ibrahim, and my evaluator, Dr. Jamal, for their invaluable guidance, constant support, and encouragement throughout the completion of this project. My deepest appreciation also goes to my parents for their unwavering support at all times. I am grateful to everyone who contributed to my final year project, whether directly or indirectly. Finally, I would like to express my gratitude to all the lecturers and staff of the Faculty of Information Sciences and Engineering at MSU, whose help and support have made my educational experience truly memorable
