

## **CHAPTER V**

### **CONCLUSION AND SUGGESTION**

#### **5.1 Conclusion**

Based on the results of the experiments, the writer can conclude that breadfruit cookies with 100 gr of breadfruit are better than breadfruit cookies with 75 gr of breadfruit. Breadfruit cookies with 100 gr of breadfruit can be accepted by 20 respondents in terms of taste, color, and aroma. However, the texture of breadfruit cookies should be improved by doing more experiments to find a better composition.

#### **5.2 Suggestion**

The writer suggests to do more experiments in making breadfruit cookies. Breadfruit cookies should be baked at the appropriate temperature and time, and the best breadfruit for making breadfruit cookies is very influential in generating cookies that are crispy and tasty.
