This final report aims to design a payroll accounting information system based on Visual Basic for Applications (VBA) for the SME Ruang Tembesu Coffee, Space and Resto. The background for this report stems from the fact that the payroll system is not yet computerized, meaning that standard payroll documents such as pay stubs, attendance summaries, and cash disbursement receipts are not currently available. The design results consist of several integrated forms and reports, including an employee data form, an attendance form, an employee payroll form, a cash disbursement receipt form, as well as an employee data summary report, an attendance summary report, a pay stub report, and a cash disbursement receipt report. With this integrated system, management can focus more on improving service quality and business development, which has a positive impact on the smooth operation and overall progress of the company, while also strengthening internal controls, expediting the payroll process, and increasing the transparency of employee payroll information.

Keywords: *Design, Accounting Information System, Payroll, Visual Basic for Applications (VBA), SMEs*

ABSTRAK

Perancangan Sistem Informasi Akuntansi Penggajian Berbasis *Visual Basic for Applications* (VBA) pada UMKM Ruang Tembesu Coffee, Space, and Resto

Laporan akhir ini bertujuan merancang sistem informasi akuntansi penggajian berbasis *Visual Basic for Applications* (VBA) pada UMKM Ruang Tembesu Coffee, Space and Resto. Latar belakang laporan didasari oleh sistem penggajian yang belum terkomputerisasi sehingga dokumen penggajian standar seperti slip gaji, rekap absensi, dan bukti kas keluar belum tersedia. Hasil perancangan berupa beberapa form dan laporan yang saling terintegrasi, meliputi *form* data karyawan, *form* absensi, *form* gaji karyawan, *form* bukti kas keluar, serta laporan rekap data karyawan, laporan rekap absensi, laporan slip gaji, dan laporan bukti kas keluar. Dengan sistem yang terintegrasi, manajemen dapat lebih berkonsentrasi pada peningkatan mutu layanan dan pengembangan usaha, yang berdampak positif terhadap kelancaran operasional dan kemajuan perusahaan secara menyeluruh, serta dapat memperkuat pengendalian internal, mempercepat proses penggajian, serta meningkatkan transparansi informasi gaji karyawan.

Kata Kunci: Perancangan, Sistem Informasi Akuntansi, Penggajian, *Visual Basic for Applications* (VBA), UMKM.
