#### **5.2 Suggestion**

To follow up the findings, the writer wants to give some suggestions.

1. Government should pay more attention about tourism destinations in Palembang, especially for Islamic religious tourism destinations because some of the destinations are not well taken care of and they will be seen in media promotion like brochure, pamphlet and booklet.

2. Department of Culture and Tourism should provide promotion media especially booklet and complete information about Islamic religious tourism destinations for visitors. Because Palembang has one interesting Islamic religious event and the only one in Indonesia that is *Ziarah Kubro* that can attract foreign visitors, but unfortunately Department of Culture and Tourism did not provide the adequate information booklet.
