

CHAPTER V: CONCLUSION AND SUGGESTION

This chapter presents the conclusion and suggestions of designing a booklet of the portrait of people's life in the banks of Musi River and also the suggestion for the purpose of the booklet.

5.1 Conclusion

The booklet of people life's in the banks of Musi River can be used as a medium to promote tourism object in Palembang. In designing the booklet, the writer used three steps including preliminary study, model development and final testing which are modified by Sukmadinata (2005). In designing the booklet, some knowledge, skill, and people's opinion were needed. First, the information and knowledge about people life's in the banks of Musi River is collected to write the description in the booklet. Second, the writing skill in English and Indonesian are needed to write the descriptions well. Third, the software including coreldraw application is used to design the booklet. Some comments and suggestion from the experts in the field of validation of information about people's life in the banks of Musi River, language, and design are needed for validation to make the booklet better.

5.2 Suggestion

There are two suggestions; the readers should follow the research and development method in order to make a booklet and for the tourism Department, the writer suggests to provide media, especially, a booklet to promote people's life in the banks of Musi River.
