

CHAPTER V

CONCLUSIONS AND SUGGESTIONS

This chapter explains about the conclusions and suggestions of the final report.

5.1 Conclusions

The method of Research and Development modified by Sukmadinata (2005) is very useful in designing the booklet of the heritage of Palembang Kingdom and Palembang Darussalam Sultanate. The method consists of three main steps: preliminary study, model development, and final product testing.

In designing the booklet, the writer must have some knowledge and skills. First, the writer needs the knowledge about the heritage of Palembang Kingdom and Palembang Darussalam Sultanate to write some valid information on the booklet. Second, the writer needs the writing skills, grammar knowledge and vocabulary in both English and Indonesian languages in describing the information about the heritage in the booklet. Third, the writer needs the skills in designing booklet to make it interesting by using one of design applications, such as Photoshop.

The final draft of the booklet was far from being perfect. Therefore, the comments from experts in the field of the use of English and Indonesian language, design, and the tourism destinations are really needed. Finally, the writer printed the booklet of the heritage of Palembang Kingdom and Palembang Darussalam Sultanate to be one of printed media that is used to promote the heritage of Palembang Kingdom and Palembang Darussalam Sultanate to people. Unfortunately, the writer did not use dissemination step because of the lack of time, fund, skills and legality.

5.2 Suggestions

There are suggestions for the next researcher. The next researcher is expected to use the dissemination step in order to introduce the product to people. Second, the next researcher is also hoped to find more information about the heritage of Palembang Kingdom.
