

The summary script of tutorial video for keychain crochet souvenir of Pempek Pistel

Hello everyone, I'm Wiwin from Polytechnic of Sriwijaya and I'm English Department student. Today I am going to show you how to make crochet souvenir of Palembang traditional food. Especially, for keychain crochet souvenir like this.

There are four kinds of Palembang traditional food that I will show you. The first is Pempek Pistel like this, and then the second one is Pempek Telok, and next is about Lumpang Cake, and the last is about Sekayo Cake.

So, in this tutorial video, I will tell you the general information first, the tools, the materials and also the stitches that I used in this tutorial video.

Ok, just go on to make the first keychain crochet souvenir of Pempek Pistel.

Pempek Pistel is the kinds of Pempek that is made by fish and sago. Pempek Pistel is filled with papaya slice and people in Palembang usually eat this food with sauce or it is called as Cuko. So guys, you've already know about this food.

Now, we can continue to start making keychain crochet souvenir of Pempek Pistel first and then after that we continue to make the second one is Pempek Telok.

The first thing that you do is prepare the tools and the material. Such as

Crochet tools, I use crochet hook size 2.5 mm, and then scissor it used for cutting yarn, trimming, pompoms, etc and keep the scissors in safety case. And then we need Tapestry needle, a blunt-pointed tapestry needle is used for sewing seams. And also we need white local cotton yarn because the color of pempek is white. After that we need a stitch marker like this, or you can use a clip or short cutting yarn. In this tutorial I only use short cutting yarn. And the last also we need polyester fiberfill which is available in many craft shop, just take it a little bit at a time and stuff your crochet souvenir with it.

The stitch that I use in this tutorial is sc, dec, inc, and dc, treble. So we have 4 kinds of stitches.

So guys, now we can continue to make the first tutorial or the first step. We will start by making magic circle it used for your working round or it is magic because you can use this end of the yarn after you have done your first round. So with this end of the yarn, just hold it over your finger like this, end then just cross it over your finger and insert your hook underneath of the yarn and then grab the yarn and then pull it through to that look like this. so now take it your finger, and we can see our magic circle here.

And we can continue with working 6 single crochet (sc), but this stitch does not count as stitch because we are going to work with sc. So we will have to make 6 sc of the 1st round.

So just work your sc, insert your hook, yarn over and then pull it through the loop like this, so here is the first sc of the first round. Work sc like this until you got 6 sc. 1,2, 3, 4,5, we can count 12345 and the last. Ok, now we can continue to pull it the end of the yarn, just pull so tightly. So guys, we can see the hole disappear so now we can continue to the next round just insert your hook like this and then yo and then pull it through so now we've made first sc of second round. In this section just add our stitch marker or short cutting yarn to mark beginning of our crochet. So now I just use short cutting yarn like this, just insert your hook, and then take the short cutting yarn, brown local cotton yarn. You may add stitch marker to mark your beginning of crochet or just use short cutting yarn. Like this. Insert the short cutting yarn and then pull it through. Do this into every beginning of your round.

Continue to make sc or increase two times in the same place to make it wider than the 1st round and do it into each chain stitches. So just continue to make the second round by making sc two times or it is called increase. And you will have 12 sts (the pattern is inc or sc.sc)

And then, do sc, and then inc, so you will have 18 sts over this round. (sc.inc)

Next for the 4th round, we make 2 next sc sts and inc. So u will have 24 sts (sc.sc.inc)

The 5th round create 3 next sc sts and then work inc. Just do this all the way around until you have 30 sts (sc x3. Inc)

So for the first 6th the pattern is work 4 next st of sc, always do it all the way along. So u will have 36 sts (scx4)

And go to the 7th round and you will have 42 sts around (scx5, inc)

Next in the 8th round work 5 sc into 5 next chain sts and then work inc as usual. The total is 48 sts. (scx6, inc)

You have to continue the next round with sc all the way around until 13th round, and I will turn off my camera and show you the crochet till the 13th. And you may also pause the video and continue your work of sc into every chain sts.

So guys, here is the total of the 8th round till the 13th round. We have 48 sts for this round. For the next step we will do Dc, it is taller than sc to create the edge of Pempek Pistel.

Making 2 chain as your first of dc, and then skip two sts, and insert the hook into the next chain from front to the back. And yarn over hook and pull it through the chain st, and you will have 3 loops on your hook. yo again and pull the hook through two of the loops on the hook. you'll now have two loops remaining the hook.

And then yo and pull it through remaining two loops. And now you have completed a dc and have one loop on the hook.

After that just yo hook, insert the hook into next chain st. And just repeat this step to make additional dc stitches.

So in this round, you will have 21 dc into every chain sts

In this step, before you've done your 21 dc of 14th round. Just stop your working in the 16th dc, and stuff the polyester fiberfill or other similar material like this. and you can get this in every craft shop.

After stuffing the polyfiberfill, if you have already completed your 21 dc and then just sl st in the last chain st, and cut the tail of the yarn using scissors, then just sew it into the body of your crochet with needle tapestry until you bring out the yarn through the top corner side of your crochet.

Now continue to the last round with making 3 chain st, and then insert the hook into the next chain from front to the back. And yarn over hook and pull it through the chain st, and you will have 4 loops on your hook. yo again and pull the hook through two of the loops on the hook. you'll now have three loops remaining the hook.

And then yo and pull it through remaining two loops. You will have 2 loops remaining and yo hook and pull the hook through remaining two loops. And now you have completed a dc and have one loop on the hook.

After that insert your hook into the next st and then bring th working yarn from behind to the hook over the top. And catch the yarn in the crook of the hook and pull it trhough the chain st.

Next just repeat treble crochet and then sl st. So you will have 10 treble, and after you have completed them.

Just work sl st like that, and then cut the tail of the yarn using scissor, and the take the needle tapestry, insert the yarn, and sew it into the body of crochet and then you can cut the end of the yarn.

And if you want to package your souvenir nicely, you may use plastic and then add some rope/metal accessories.

So guys, now u have your keychain crochet souvenir of Pempek Pistol.

The summary script of tutorial video for keychain crochet souvenir of Pempek Telok

In this tutorial im going to show you how to make keychain crochet souvenir of Pempek telok.

Let's start to make the second one of keychain crochet souvenir of Pempek Telok.

Just use the tools that we have made before in makin Pempek Pistol.

The stitch that I use in this tutorial is sc, dec, inc, and dc, treble. So we have 4 kinds of stitches.

Let's begin by making a magic cricle like my previous video.

Grab the white local cotton yarn. After that put it on your finger, like this. and then insert your hook underneath the first piece of yarn. And then pull the yarn up and take off your

finger. And now you have your magic circle. If you still do not clear, you can watch my previous video.

This stitch doesn't count as a stitch because we are going to work with sc. So we have to make 6 sc of the 1st round.

Work your sc, insert your hook, yarn over and then pull it through the loop, do this until you get 6 sc. After that connect this right side to the left, just insert your hook at the first chain st of your first sc and then yarn over, pull it through the loop. So here is the first of our sc for the 1st round.

You may add a stitch marker to mark your beginning of crochet or just use short cutting yarn. Like this. Insert the short cutting yarn and then pull it through. Do this into every beginning of your round.

Begin the second round by crocheting inc or sc 2 times in the same place to make it wider than the 1st round and do it into each chain st. So you will have 12 sts (the pattern is inc or sc.sc)

And then, do sc, and then inc, so you will have 18 sts over this round. (sc.inc)

Next for the 4th round, we make 2 next sc sts and inc. So you will have 24 sts (sc.sc.inc)

The 5th round create 3 next sc sts and then work inc. Just do this all the way around until you have 30 sts (sc x3. Inc)

And go to the 6th round working with sc into each chain st and do it until 11th round (30 sts)

I will turn off my camera as always and show you the crochet till the 11th. And you may also pause the video and continue your work of sc into every chain sts.

So guys, here is the total of the 6th round till the 11th round. We have 30 sts for this round. For the next step we will do Dc, it is taller than sc to create the top edge of Pempek Telok.

Work dc like we made in the previous video of Pempek Pistel.

Making 2 chain as your first of dc, and then skip two sts, and insert the hook into the next chain from front to the back. And yarn over hook and pull it through the chain st, and you will have 3 loops on your hook. Yarn over again and pull the hook through two of the loops on the hook. You'll now have two loops remaining on the hook.

And then yo and pull it through remaining two loops. And now you have completed a dc and have one loop on the hook.

After that just yo hook, insert the hook into next chain st. And just repeat this step to make additional dc stitches.

So in this round, you will have 28 dc. 3 dc at the beginning and the last chain st. In the middle round just do two dc into each st.

In this step, before you've done your 28 dc of 12th round. Just stop your working in the 20th dc, and stuff the polyester fiberfill or other similar material like this. and you can get this in every craft shop.

After stuffing the polyfiberfill, if you have already completed your 28 dc and then just sl st in the last chain st, and cut the tail of the yarn using scissors, then just sew it into the body of your crochet with needle tapestry until you bring out the yarn through the bottom of your crochet.

We have done our last round, crocheting Pempek Telok is easier than Pempek Pistel because we do not need to use treble in this crochet souvenir.

And so if you want to package your souvenir nicely, you may use plastic and then add some rope/metal accessories.

So guys, now u have your keychain crochet souvenir of Pempek Telok.

The summary script of tutorial video for keychain crochet souvenir of Lumpang Cake

In this tutorial is about Lumpang Cake. This cake usually serves with desiccated coconut that adding with salt and then it is steamed. The name is taken by the form of Lumpang in Bahasa Indonesia and it is called Lumpang because in the middle form of this cake is like Lumpang. The texture of Lumpang cake is tender and soft and for the taste is sweet.

Now just go on to the step of how making this cute and unique souvenir. For your information this is a very first crochet souvenir of Lumpang Cake in Palembang Indonesia.

Begin by making a magic cricle. It is used for your working rounds and it is magic because you can use this end after you've done your first 1 round.

With this end of the yarn just hold it over your hand like this, grabbing the wroking end of the yarn. And just cross it over your finger like this

And hold the working end of yarn back here and dont do that tightly because we need to get in under this first piece of yarn here,

And then grabbing that end of the yarn, we're going to pull that underneath and being that up and then with the working end of the yarn, wrap ur yarn under the hook and draw it through that loop.

Take it off your finger and there's your magic ring.

This stitch doesn't count as a stitch because we are going to work with sc. So we have to make 6 sc of the 1st round.

Work your sc, insert your hook, yarn over and then pull it through the loop, do this until you got 6 sc. After that connect this right side to the left, just insert your hook at the first chain st of your first sc and then yarn over, pull it through the loop. So here is the first of our sc for the 1st round.

You may add stitch marker to mark your beginning of crochet or just use short cutting yarn. Like this. Insert the short cutting yarn and then pull it through. Do this in every beginning of your round.

Begin the second round by crocheting inc or sc 2 times in the same place to make it wider than the 1st round and do it into each chain st. So you will have 12 sts (the pattern is inc or sc.sc)

And then, do sc, and then inc, so you will have 18 sts over this round. (sc.inc)

Next for the 4th round, we make 2 next sc sts and inc. So u will have 24 sts (sc.sc.inc)

The 5th round create 3 next sc sts and then work inc. Just do this all the way around until you have 30 sts (sc x3. Inc)

So now for the 6th round until the 12th round. Just do 30 sc into each st all the way around. (30 sts)

You have to continue the next round with sc and dec because it is used for decreasing your crochet size. Okay now, you can continue working sc until the 12th, I will turn off my camera and show you the crochet till the 12th.

So guys, here is the total of our 12th round. We have 30 sts for this round. For the next step just

Do sc into the next of 3 sts, and then work dec. By working 2 stitches have to be worked together, by leaving the last loop of each stitch on the hook then working them off together. Like this

So now just go on it all the way around, 3 sc and then dec. So u will have (24 sts)

Next to the 14th round work sc in the next 2 sts, and then dec, just do it just like the previous round. so u will have (18 sts)

The next 15th round work sc 1 and then dec, such as the previous round too. Then you will have (12 sts)

In this step, after you've done your 15th round. Just stop your working, and stuff the polyester fiberfill or other similar material like this. and you can get this in every craft shop.

16th round just work sc into each sts all the way around until the 18 round. and the last just sl st all sts to make it look like Lumpang that has a small hole in the middle of the cake. And then to finish your souvenir, you have to sew the last step of your crochet using tapestry needle.

Insert your yarn and then pull it through the hole of the needle.

Sew it nicely like this. and for the last, sew it into your crochet body to fasten off.

And I have the wool white yarn as the topping of Lumpang Cake that it is from desiccated coconut. Just sew chain sts like this all the way around for 2 rounds of the top. And the last add the keychain near to the topping itself.

If you want to package your souvenir nicely, you may use plastic and then add some rope accessories.

So guys, now you have your keychain crochet souvenir of Lumpang Cake. The taste of Palembang traditional food.

The summary script of tutorial video for keychain crochet souvenir of Sekayo Cake

Sekayo Cake

In this tutorial is about Sekayo Cake. The form of this cake is quite same like Lumpang cake, but sekayo has no the hole in the middle of the top cake. And for the color is also different from the first one. It has green color as pandan leaves and white color as sticky rice. The taste is as sweet as Lumpang. And the main ingredient is from egg, sugar, and amount of flour.

Okay, now I will show you how to crochet sekayo cake souvenir.

The tools that you have to prepare is the same like Lumpang cake, but you have to add white woll yarn, so u have 2 colors of yarn to be used.

Now just go on to the step of how making this pretty souvenir.

Always begin by making magic. Like I'd said before It is used for your working rounds and it is magic because you can use this end after you've done your first round.

Grab the white woll because we will make the bottom first as sticky rice of sekayo cake. After that put it on your finger, like this. and then insert your hook underneath the first piece of yarn. And then pull the yarn up and take off your finger. And now you have your magic circle.

As always this stitch doesn't count as stitch because we are going to work with sc. So we have to make 6 sc of the 1st round.

Work your sc, insert your hook, yarn over and then pull it through the loop, do this until you got 6 sc. After that connect this right side to the left, just insert your hook at the first chain st of your first sc and then yarn over, pull it through the loop. So here is the first of our sc for the 1st round.

As usual you may add stitch marker to mark your beginning of crochet or just use short cutting yarn. Like this. Insert the short cutting yarn and then pull it through. Do this in every beginning of your round.

Just begin the second round by crocheting inc or sc two times in the same place to make it wider than the 1st round and do it into each chain st. So you will have 12 sts (the pattern is inc or sc.sc)

And then, do sc, and then inc, so you will have 18 sts over this round. (sc.inc)

Next for the 4th round, we make 2 next sc sts and inc. So u will have 24 sts (sc.sc.inc)

The 5th round create 3 next sc sts and then work inc. Just do this all the way around until you have 30 sts (sc x3. Inc)

In this step is the same like we made Lumpang cake at the beginning but we only add one more round.

So for the first 6th the pattern is work 4 next st of sc, always do it all the way along. So u will have 36 sts (scx4)

So now for the 7th round until the 10th round and just do 36 sc into each st all the way around (36 sts) after that we change the next color yarn that is green as pandan leaves itself.

Do sc again until 14 th round. And u will have 36 sts.

Okay now, you can continue working sc until the 14th, I will turn off my camera and show you the crochet till the 14th round.

As you can see we've done the 14th round. We have 36 sts for this round.

So for the 15th round now we do dec again like the previous one. So u have to continue the next round with sc and dec because it is used for decreasing your crochet size.

For the next 15th round just do sc into the next of 3 sts, and then work dec. By working 2 stitches have to be worked together, by leaving the last loop of each stitch on the hook then working them off together. Like this

So now just do it all the way around, 3 sc and then dec. So u will have (24 sts)

Next to the 16th round work sc in the next 2 sts, and then dec, just do it just like the previous round. so u will have (3 x sc, inc18 sts)

In this step, after you've done your 16th round. Just stop your working, and stuff the polyester fiberfill or other similar material like this. and you can get this stuff in every craft shop.

We continue to the next 17th round work sc 1 and then dec, such as the previous round too. Then you will have (2 x sc, inc 12 sts)

And for the 18th round work dec all the way around so u will have 6 round like the first beginning round and the last make a slip stitch (6sts)

After that, continue to the last round just sew with sl st using tapestry needle.

Insert your yarn and then pull it through the hole of the needle.

Sew it nicely like this. and for the last, sew it into your crochet body to fasten off.

And then add the keychain on the middle of crochet top.

If you want to package your souvenir become nicely, you can use this plastic and add some accessories of metal rope accessories or others.

So guys, this is the end of tutorial video of keychain crochet souvenir.

Okay, I think that's all for my tutorial video of Palembang traditional food crochet souvenir and I hope that you can enjoy this tutorial of video and thank you for watching, see you !
