

CHAPTER V

CONCLUSION AND SUGGESTIONS

This chapter presents the conclusion and the suggestions of the final report.

5.1 Conclusion

The story book entitled “Monpera” can be used as the medium to introduce and inform the general history and the collections of Monpera especially for the children. In designing the story book, the writer used Research and Development (R&D) method that has three steps: preliminary study, model development, and final product testing. In the process of designing the story book, some knowledge, skill, and people’s opinion were needed. First, the information and knowledge related to history and the collections of Monpera and designing the story book are needed to make the story book based on its fact as a non-fiction story book. Second, English writing skill is needed to write the dialogues between the characters in the story book and the description of the picture in the story book. Third, the software such as Adobe Photoshop CS3 Portable, CorelDRAW vector graphics editor, and Microsoft Office Word application are used to design and write the story book. For developing the model draft, the writer requested some comments and suggestions from the experts to validate the story book. Finally, the writer made the final product of the “Monpera” non-fiction story book to be one of the medium to introduce the history and the collections of Monpera especially for children.

5.2 Suggestions

The writer expected that future researchers can use the dissemination step in order to make the product better.
