

CHAPTER V

CONCLUSION AND SUGGESTION

5.1 Conclusions

Based on the research and development of the Fruits Brownies, it can be concluded that Brownies can be developed using Avocado, Coconut, and Date palm to make new cake variants. These products are accepted by the customer and public. The taste of these Fruits Brownies was sweet enough. It is proved by the acceptance percentage result from 60 respondent. The writer already found the appropriate compositions to make the both avocado, coconut, and date palm brownies. The recipe book that the writer made can be the culinary journals and references. The experts (Mr. Qqayum and Mr. Suhadi From Bogasari Baking Center) said that the recipe book about fruits brownies was the new kind of recipe book in Palembang. According to them, the information in the recipe book was complete enough and the design of the recipe book was quite interesting. To make the brochure and the packaging of the product become more interesting, the writer conducted three times revision based on the experts' (Chefs from Bogasari Baking Center and Lathansa Cafe) opinion.

5.2 Suggestions

The writer suggests that to get the perfect fruits brownies, there are many factors that should be considered. One of them is about the compositions of the ingredients which should be in the correct measurement. The composition of each ingredients should be weighed correctly. The time mixing process should be around three or four minutes. The baking time process for the avocado brownies should be around twenty minutes, and for coconut and date palm brownies should be around thirty minutes. The writer hopes that this research and development of fruits brownies can be continued by other people.
