The Original Narration of Kampung Iklim Vlog

Hello guys, I am Lady Intania and I am the student of English Department. So, today I am in Kampung Iklim of South Sumatera and I want to show you Kampung Iklim and please you can see the potential of this village could be the educational tourism destination. So, let's check this out.

Kampung Iklim is the achievements of the good environment that start from the self-awareness of local people to not littering the trash, plant veges, and so on.

The beginning of Kampung Iklim Kelurahan 2 Ilir is the greening done by the community initiated by Siti Muzayana as social activist

Finally, the greening activities done by the people get appreciation from the government so that Kelurahan 2 Ilir was named as Kampung Iklim of South Sumatera Province

The uniqueness of this village is the local people has already concern about environment issues and act to solve it then only empathizing

At the beginning, local people plant vegetables, such as chilli, lettuce, etc but during time local people start to plant many other plants such as sedap malam, tapak kuda, etc. even for this time, Sedap Malam plant has been up for more than 400 plants along the road of this village

So, I am walking around Kampung Iklim of south sumatera, you can see that there are so many plants here

You can see the plants in this one of local peope's home, there are so many plants here.

Simple way to get additional fresh air in this time, right?

Beside of the good environment, in this village also has green houses and trash bank that could be one of educational tourism destination

Here are two greenhouses in this village, so this one is one of the greenhouse, so check this out.

This greenhouse located in Family Empowerment Center menaged by Siti Muazayana

She is the leader of Family Empowerment Center and she's the one who start the activities in this village.

She has been managing the activities of Family Empowerment Center with her sister who is the Director of Kebumen Gemilang Sejahtera Trash Bank

This place also sells seed and it could use as one of educational tourism attraction such as seedling

Plants that have been planted in almost every citizen's home is mostly from here

Green house is used as a place of medicinal plants and also plants for daily needs among all thing ssuch as torenia (wishbone flower), kaempferia galanga or kencur in bahasa, cat whiskers, saucer leaf or daun mangkokan in bahasa, purslane or krokot in bahasa, celery, chilli, etc. Torenia and kencur can be useful for cough medicine, celery for cooking and additional vegetable and many benefits of some other plants,

Ok guys, in this Kampung Iklim, there are two main places that we can visit as educational tourism destination object, and this one is one of tourism destination object. In this greenhouse. You can see that there are so many plants here and they use it for daily life.

Torenia and kecur can be useful for cough medicine

Celery for cooking and addtitional vegetable and many benefits of some other plants

then we can go on to the next place....

If you walking along the road, you will see that most of the house has their own 'little garden'. It could be very simple things but rare in the capital city.

This is Kebumen Gemilang Sejahtera Trash Bank of Kampung Iklim Kelurahan 2 Ilir, local people use to come to this place to do some activities related to environment or just socializing

Beside of the place of educational tourism attraction, in this Trash Bank also has instagrammable mural.

Oke guys, this picture was made by the student of Islamic University Muhammadiyah Palembang. In this Kampung Iklim, you can see how beautiful their creation.

There are ponds, trash banks, and agriculture as educational tourism attractions. It is the wider location for seedling and making products from waste material. Not only this place is beautiful to be visited, but there are also some activities such as seedling, fishing, farming, and making creative product from waste material.

There is a room for making product of waste material such as newspaper and this product has been promoting in some events in Indonesia.

The newest event that joined by KGS Trash Bank is Palembang Fair 2018, here is the event....

Palembang Fair 2018 is the event to celebrate the anniversary of Palembang City and followed by the products of Kampung Iklim Kelurahan 2 Ilir.

This event has been newly held in 2018 and it will be held routinely to be an annual event for local superior products to be recognized. Not only will always about pempek but also some other UMKM products.

Also, it is one of the efforts to introduce the excellent products of UMKM (Usaha Mikro Kecil dan Menengah) or Micro, Small, Medium Enterprises in South Sumatera.

That's why, Kampung Iklim Kelurahan 2 Ilir joined this event because they want to promote their products. Their products are not inferior to other UMKM's products.

The handicrafts from newspaper they made instead, inspired the visitors who come to make it at home. Many visitors curious how to make the products and want to learn how make it.

In the third day of the event, Mrs. Welis and Mrs. Siti teach the visitors and the other UMKM's staffs to make the products from newspaper. So, some visitors in this event already has the acknowledge to decrease the amount of their old newspaper to be a good products such as small basket, pin cushion, or beautiful brooches like this. Beside of giving some acknowledgement to make the products, Kampung Iklim Kelurahan 2 Ilir also give acknowledgement about green up the environment.

Here are some popular products and most visitors bought ...

Last, the successful of this event is also to welcome ASIAN GAMES 2018.

Local people use this place as meeting point to discuss about the activities of Kampung Iklim Kelurahan 2 Ilir

The member of Family Empowerment Center and Kebumen Gemilang Sriwijaya Trash Bank about seed and frameork distribution

The main sponsor who gave those things are PT PUSRI to Mrs. Siti Muzayanah as the coordinator

This is the another green house that visitors could visit..

This green house is quite different, it's wider and the plants are strawberry, lidah buaya, etc

This place for visitors are suitable for learning how to seed peanut in this Field

and fishing cat fishes in this pond

or just learning how to breed animals

and interesting activity to join in Kampung Iklim is make handicrafts from old newspaper

This one is one of the product of trash bank in Kampung Iklim. It is so beautiful, it's made from newspaper and it's not really difficult to make and I will show you how to make the product because it so easy and you can see that

If you really want to learn about this, don't mind to visit Kampung Iklim Kelurahan 2 Ilir

So, Kampung Iklim has its own uniqueness and educational tourism attraction is really suitable in here

Thank you for watching

The Narration of Development Product Based on Limited Field Testing

Narration (11.10 minutes)

Hello guys, welcome to my channel. My name is Lady Intania and I am the student of English Department of Sriwijaya State Polytechnic. Actually, this is the first time for me to make a vlog and this time, my vlog is about tourism.

But first, I want you to think about some types of tourism. Yes, that's right! There are some types of tourism such as historical tourism, sport tourism, cultural tourism, educational tourism, and so on.

And then have you ever heard about Kampung Iklim before? Well, I want to show you a little tour of this village and I want you to determine which type of tourism that this place belongs to?

So, here we go...

Kampung Iklim is the achievement of the good environment that starts from the self-awareness of local people not to litter the trash, plant veges, and so on.

Besides the good environment, this village also has greenhouses and trash bank that can be one of educational tourism destination

You can visit this village by taking the bus to PT. PUSRI or by car for 20 minutes from the center of Palembang.

and stop at Jalan Sersan Zaini to walk for 15 minutes to Family Empowerment Center

This greenhouse is located in Family Empowerment Center managed by Siti Muzayana and used as a place of medicinal plants and also plants for daily needs among all things such as torenia (wishbone flower), kaempferia galanga or kencur , cat whiskers, saucer leaf or daun mangkokan, purslane or krokot , celery, chilli, etc.

This greenhouse located in Family Empowerment Center (POSDAYA) managed by Ms. Siti Muzayana or people usually call her Bu'le Siti

She is the leader of Family Empowerment Center and she's the one who start the activities in this village

She has been managing the activities of the Family Empowerment Center with her sister who is the Director of Kebumen Gemilang Sejahtera Trash Bank

The plants that have been planted in almost every local people's homes are mostly from here

At the beginning, local people plant vegetables, such as chilli, lettuce, etc but during time local people start to plant many other plants such as sedap malam, tapak kuda, etc

Even for this time, Sedap Malam plants have already increased more than 400 plants along the road of this village.

This place also sell seeds with cheaper price start from 10.000 rupiahs to 15.000 rupiahs for chilli seed, eggplant seed, sedap malam, etc

then, we continue to another greenhouse....

If you are walking along the road, you will see that most of the houses have their own 'little garden'. It could be a very simple thing but rare in the capital city.

This is another greenhouse that visitors could visit..

This greenhouse is quite different, it's wider, and the plants are strawberry, lidah buaya, and other greeneries.

In this greenhouse there are more than 40 types of plant that you can learn to

You could seeding the plants here, picking up strawberries, and learning about the other greeneries.

this place can hold for 20 people who want to learn seeding plants

so, if you want to visit this place don't come alone please...

if you wonder where is it! don't be surprised because it's still in Kampung Iklim Kelurahan 2 Ilir.

Besides the place of educational tourism activities, this Trash Bank also has instagrammable mural.

Nice spot to take a selfie, right?

You only pay 10.000 rupiahs to see the environment of Kampung Iklim Kelurahan

2 Ilir

It opens from 08.00 a.m till 05.00 p.m in the evening

not only taking a selfie but you can also learn how to make the product or beautiful newspaper handicraft directly by Ms. Siti and Ms.

Welis you can take this section of making newspaper handicraft every weekend and Kampung Iklim Kelurahan 2 Ilir will open at 07.00 am

but don't worry, if you want to take a private section you can pay for 40.000 rupiahs and you can take your own creation

don't forget to bring your old and used newspaper!!

and the cutest pin basket is ready to be yours!!!

the newest event that joined by these product is Palembang Fair 2018

Palembang Fair 2018 is the event to celebrate the anniversary of Palembang City and followed by Kampung Iklim Kelurahan 2 Ilir through showing their products.

This event has been newly held in 2018 and it will be held routinely to be an annual event for popularizing local superior products. So, pempek is not always the only product but also some other UMKM products.

Also, it is one of the efforts to introduce the excellent products of UMKM (Usaha Mikro Kecil dan Menengah) or Micro, Small, Medium Enterprises in South Sumatera.

That's why; Kampung Iklim Kelurahan 2 Ilir joined this event because they want to promote their products. Their products are not inferior to other UMKM's products

The handicrafts from newspaper they made, inspired the visitors who came here to make it at home. Many visitors were curious how to make the products and wanted to learn how make it

On the third day of the event, Mrs. Welis and Mrs. Siti taught the visitors and the other UMKM's staffs to make the products from newspaper. So, some visitors in this event already had the acknowledgement to decrease the amount of their old newspaper to be good products such as small basket, pin cushion, or beautiful brooches like this. Besides giving some acknowledgement to make the products, Kampung Iklim Kelurahan 2 Ilir also give acknowledgement about improving the environment

Here are some popular products and most visitors bought...

Last, the successful of this event is also to welcome ASIAN GAMES 2018

In this place also has small field to seed peanut or kale, and when the harvest time comes, visitors can be able to join

not more than 20 persons can joined this activites, so grab your ticket now!!!

beside of the field. the cat fishes pond is also very interesting. you can bring your own cat fishes to your home!!

and last but not least, you can directly observe how to breed animal like goat and also chicken

That is how Kampung Iklim adapts the climate change in this globalization era. And I do believe that you agree to make this village as educational tourism destination.

And that' s right; this village is suitable for educational tourism destination. It also belongs to 3R system; Reduce, Reuse, and Recycle.

Okay guys, hope you enjoy my vlog and want to visit Kampung Iklim Kelurahan 2 Ilir. See you in the next vlog and thank you for watching.

So, here we go...

Kampung Iklim is the achievement of the good environment that starts from the self-awareness of local people not to litter the trash, plant veges, and so on.

Besides the good environment, this village also has greenhouses and trash bank that can be one of educational tourism destination

You can visit this village by taking the bus to PT. PUSRI or by car for 20 minutes from the center of Palembang.

and stop at Jalan Sersan Zaini to walk for 15 minutes to Family Empowerment Center

This greenhouse is located in Family Empowerment Center managed by Siti Muzayana and used as a place of medicinal plants and also plants for daily needs among all things such as torenia (wishbone flower), kaempferia galanga or kencur , cat whiskers, saucer leaf or daun mangkokan, purslane or krokot , celery, chilli, etc.

This greenhouse located in Family Empowerment Center (POSDAYA) managed by Ms. Siti Muzayana or people usually call her Bu'le Siti

She is the leader of Family Empowerment Center and she's the one who start the activities in this village

She has been managing the activities of the Family Empowerment Center with her sister who is the Director of Kebumen Gemilang Sejahtera Trash Bank

The plants that have been planted in almost every local people's homes are mostly from here

At the beginning, local people plant vegetables, such as chilli, lettuce, etc but during time local people start to plant many other plants such as sedap malam, tapak kuda, etc

Even for this time, Sedap Malam plants have already increased more than 400 plants along the road of this village.

This place also sell seeds with cheaper price start from 10.000 rupiahs to 15.000 rupiahs for chilli seed, eggplant seed, sedap malam, etc

then, we continue to another greenhouse....

If you are walking along the road, you will see that most of the houses have their own 'little garden'. It could be a very simple thing but rare in the capital city.

This is another greenhouse that visitors could visit..

This greenhouse is quite different, it's wider, and the plants are strawberry, lidah buaya, and other greeneries.

In this greenhouse there are more than 40 types of plant that you can learn to

You could seeding the plants here, picking up strawberries, and learning about the other greeneries.

this place can hold for 20 people who want to learn seeding plants

so, if you want to visit this place don't come alone please...

if you wonder where is it! don't be surprised because it's still in Kampung Iklim Kelurahan 2 Ilir.

Besides the place of educational tourism activities, this Trash Bank also has instagrammable mural.

Nice spot to take a selfie, right?

You only pay 10.000 rupiahs to see the environment of Kampung Iklim Kelurahan

2 Ilir

It opens from 08.00 a.m till 05.00 p.m in the evening

not only taking a selfie but you can also learn how to make the product or beautiful newspaper handicraft directly by Ms. Siti and Ms.

Wellis you can take this section of making newspaper handicraft every weekend and Kampung Iklim Kelurahan 2 Ilir will open at 07.00 am

but don't worry, if you want to take a private section you can pay for 40.000 rupiahs and you can take your own creation

don't forget to bring your old and used newspaper!!

and the cutest pin basket is ready to be yours!!!

the newest event that joined by these product is Palembang Fair 2018

The newest event participated by KGS Trash Bank is Palembang Fair 2018, here is the event....

Palembang Fair 2018 is the event to celebrate the anniversary of Palembang City and it is followed by the products of Kampung Iklim Kelurahan 2 Ilir.

This event has been newly held in 2018 and it will be held routinely to be an annual event for local superior products to be recognized. Not only will always about pempek but also some other UMKM products.

Also, it is one of the efforts to introduce the excellent products of UMKM (Usaha Mikro Kecil dan Menengah) or Micro, Small, Medium Enterprises in South Sumatera.

That's why, Kampung Iklim Kelurahan 2 Ilir joined this event because they want to promote its products. Its products are not inferior to other UMKM's products

Instead, they have made the handicrafts from newspaper, this has inspired the visitors to imitate. Many visitors are curious how to make the products and want to learn how make them

In the third day of the event, Ms. Welis and Ms. Siti taught the visitors and the other UMKM's staffs to make the products from newspaper. So, some visitors in this event already had the acknowledgement to change the number of their uold newspaper to be good products such as, small basket, pin cushion, or beautiful brooches like this. Beside of giving some acknowledgement to make the products, Kampung Iklim Kelurahan 2 Ilir also gave acknowledgement about greening up the environment

Here are some popular products and most visitors bought ...

Finally, the success of this event is also to welcome ASIAN GAMES 2018

In this place also has small field to seed peanut or kale, and when the harvest time comes, visitors can be able to join

not more than 20 persons can joined this activites, so grab your ticket now!!!

beside of the field. the cat fishes pond is also very interestingyou can bring your own cat fishes to your home!!

and last but not least, you can directly observe how to breed animal like goat and also chicken

That is how Kampung Iklim adapts the climate change in this globalization era. And I do believe that you agree to make this village as educational tourism destination.

And that' s right; this village is suitable for educational tourism destination. It also belongs to 3R system; Reduce, Reuse, and Recycle.

Okay guys, hope you enjoy my vlog and want to visit Kampung Iklim Kelurahan 2 Ilir. See you in the next vlog and thank you for watching.
