HASIL WAWANCARA

Wawancara penulis lakukan dengan salah satu karyawan Unit Kerja ICT pada PT Semen Baturaja (Persero) Tbk yaitu Bapak M Rastato Rangga Sakti. Sesi wawancara dilaksanakan pada hari Rabu, 20 Maret 2019. Hal yang di bahas yaitu mengenai aplikasi untuk laporan teknisi dan laporan keluhan kerusakan pada Unit Kerja ICT PT Semen Baturaja (Persero) Tbk. Berikut hasil wawancara:

P: Penulis

N: Narasumber

P: Assalamualaikum, Selamat Pagi pak. Saya mahasiswa dari Politeknik Negeri Sriwijaya ingin menanyakan perihal aplikasi untuk laporan teknisi dan laporan keluhan kerusakan unit kerja lain kepada Unit Kerja ICT.

N: Waalaikumsalam, Selamat Pagi. Baiklah, jadi di Unit Kerja ICT di PT Semen Baturaja ini terdapat tiga bagian yaitu ICT Infrastruktur, ICT Governance, dan Developer atau Programmer. Nah untuk ICT Infrastruktur sendiri tugasnya adalah maintenance harian untuk software, hardware dan network yang ada di PT Semen Baturaja (Persero) Tbk.

P: Apa tujuan dari pembuatan aplikasi itu sendiri?

N: Aplikasi ini nantinya berguna sebagai KPI (Kumulatif Penilaian Indeks) yaitu penilaian pada bagian ICT Infrastruktur, misalnya teknisi melakukan perbaikan terhadap keluhan kerusakan perangkat dan jaringan dari hasil pekerjaan teknisi tersebut nanti akan di ketahui tingkat kepuasan terhadap hasil pekerjaan teknisi tersebut.

P: Lalu unit kerja apa yang akan menerima laporan tersebut?

N: Disini terdapat Sistem KPI. Sistem ini mewajibkan setiap unit kerja untuk membuat laporan kepada Unit Kerja SDM Selain itu juga membuat laporan kepada atasan. Jadi Aplikasi ini nantinya akan membantu Teknisi ICT Infrastruktur untuk membuat laporan tersebut yang nantinya berguna sebagai penilaian terhadap hasill pekerjaannya.

P: Baik, kami rasa cukup pak, terima kasih atas waktu dan informasi yang sudah bapak berikan, Wasalammualaikum Pak.

N: Sama-sama, semoga informasi yang saya berikan dapat membantu kalian nantinya, Waalaikumsalam.

LISTING PROGRAM

Conn.php

```php
<?php
$host = "localhost";
$dbname = "db_ptsb";
