Where do you live? I live at lebak rejo, sekip

Pekerjaan bapak aapa? Kalo sehari hari seperti inilah jualan pempek keliling

What is your job sir ? my daily activities just sell the pempek

Awal mula bapak jualan pempek itu gimana? Seperti ini tidak ada istilahnya, iya mulai dari temen, diajak, lalu ikut dia dan sampai sekarang Alhamdulillah begoyor..

Can u tell me how was the first time you start sell the pempek? Just like that, first time its started from my friend, he asked me to joined then I follow him, and im so grateful its stil going on

Jenis Pempek apa saja yang dijual? Lenjer, pe pek telok, pempek kulit, bakwan.,pempek tahu,

What kinds of pempek thay you sell? Lenjer, pempek telur, pempek kulit, bakwan, pempek tahu.

Alasan kenapa pempek ini disebut pempek sepeda? Iya karena jualnny menggunakan sepeda, jadi disebut pempek sepeda.

What is the reason its called to be pempek sepeda, well because I sell pempek using bicycle, so maybe that is the reasons called pempek sepeda

Bapak suka stanby dimana untuk jualan? Kl sehari2 di lumban atau dpn rs umum

Where is the specific places to sell it? In a daily im usually stay at Lumban Tirta Swimming Poo, and RSMH hospital

Jualan dr jam berapa sampai jam brp pak?biasanya bapak jualan dari jam 7 berangkat dari rumah kan, lalu sampe di lokasi yaitu lumban jam 8 pagi, kalo pulangny tidak nentu, apabila pempeknya cepet habis, bapak juga cepat pulang, tapi batasny ajam 6 biasanya batu pulang.

What time you do you usually start to sell pempek?

Usually I started to go from my home from 7am. Then at 8am im arrived at Lumban tirta. I go back to my home based on the selling pempek itself, if the pempek quickly runs out so I will go back to my home, maybe it just until 6pm I go back home

Trs kalo pempek bapak buat sendiri atau bagaimana ? kalo pempeknya bapak ambil di agennya, Agenny di di dekat rumah di daerah sekip.

How about the pempek, do you made it by yourself/ did you took it in agent? I took it by the agent, the agent located at lebak rejo, sekip near my house

Kalo skali ngambil brp buah pak pempeknya? Kalo ngambilnya sekitar 700/800 pcs sehari

How much you took the pempek in a day?

I took it around 700/800 pcs in a day

Kalo 700 ambil, biasanya habis terjual berapa pak?? Tidak menentu, biasanya kalau ramai habis semua, tentunya, kadang klo rame abis, kalo idk nyiso. Cuma lahamdulillah jualan selama in abs tula ado be rezeki jualan,

If you took it 700pcs, then how much the pempek has been sold? It is not predictedtable, if there are many customers buy it, then it sold. But if not it can be left over. Thank Godness until this day, the pempek always sold out

Kalo untungy sendiri brpl kira kira pak? Kalo rata rata untungnya itu 150rb bisa dibawa pulang

Then, how about the profit? The average is about 150 for me

Dr untung hasil berjualan apa cukup untuk kehidupan bapak sehari2? Alhamdulillah iya gimana kalo dibilang cukup iya diusahakan cukup. Alhamdulillah di cukup2i Alhamdulillah bersyukur

From that profit is it enough to fulfill the necessary for daily life,? For goodness, if I can say enough it must be enough,. Alhamdulillah im so gratefull

Pendapat bapak yang sekarang sudah jarang ditemui penjual pempek sepeda yang beralih ke motr itu gimana? Kalo untuk jualan Untuk jualan enaklah pake sepeda, kalo ado yg manggil bisa angsung gerak, kalo bemotor ado ngejer target. Kalo mamang dr awal smp akhir sepda tula

In your opinion, how about seeing the fact is pempek sepeda its already decreased, then replaced by pempek motor?

Actually, for distributing it its better using bicycle, so, when people calling for me, it can be easier to move, when using motorcycle it is usually have their own target. But fo me from the first time, im still using bicyclde.

kalo kepenggenyo ado yg lbh baik dr pempek idak mungkin mamang nk jualan sampe tuo, kalo ado yg lbh baik pilih lbh baik. Tapi kalo dasar dr prmprk dk mungkin ditinggali dasrnyo dr pempek.

If there is a change, the job that better than that, what do you think?

If there is another chance better rather than selling pempek, I will take it. Because its impossible if I always sell the pempek for a long time, but if from the first tike im sell the pmpek, its hard also for me to leave it.
