

CHAPTER V

CONCLUSION AND SUGGESTION

5.1 Conclusion

Based on research and development of red dragon fruit donut, the writer concludes that red dragon fruit donut can be developed using red dragon fruit. In making red dragon fruit donut, the writer used research and development from Sukmadinata. The product has been revised second times by the experts. They said overall is good, but Mrs. Rima told for adding cream and pieces of red dragon fruit in the middle of donut like sandwich as the topping to make good appearance. The information about the cake can be found in recipe booklet. The recipe booklet contains the information about the ingredients, steps and benefit of red dragon fruit donut.

5.2 Suggestion

There are several obstacles that the writer found while conducting this research, the suggestion offer as following: it need paying attention to the way to fry Red dragon fruit donut. To fry the red dragon fruit should with low heat to get the donuts cook well.
