

CHAPTER V

CONCLUSION AND SUGGESTIONS

5.1 Conclusion

From the explanation in the previous chapters, the writer concludes that there are three steps in writing process of the booklet about *Perahu Bidar*. The steps written by Oshima and Hogue (2007) are in line with Research and Development by Sukmadinata (2015). The first step is Preliminary Study can be cooperated with prewriting, organizing, and writing by Oshima and Hogue. The second step is Model development conducted with polishing. Polishing are revising and editing. The writer did limited testing to make the product developed. There were two aspects checked by two experts in limited testing. The aspects were about non-formal language and capitalization used in the Indonesian draft, and also grammatical error, mistyped, and punctuation in the English draft. Then, the writer revised and edited the draft. After that, the writer did wider testing. The writer asked the comments and suggestions from two experts about the content of the booklet. The last step is Final product testing connected with final draft. This is the last stage of research and development modification steps, it consists of pre-testing, revision, and dissemination. Pre-testing is the last revising step from the wider testing, while dissemination is the writer trying to promote the product to society. Unfortunately, the writer will not do the pre-testing, revision, and dissemination steps because of the lack of cost, time, skill, and legality.

There were some advantages and disadvantages of the steps. The advantages such as, the steps are relevant, so the writer easily implemented steps that will be done. The steps were easily enforced because when the writer wrote the script, the writer more understood in developing the script. The writer also found disadvantages when implemented the steps. The steps consist of four stages, so the writer took a long time to write the script into the fixed paragraph in script development.

5.2 Suggestions

In this final report, the writer would like to suggest for the next researcher to use the script in creating booklet of *Perahu Bidar* in order to help The Tourism Department of Palembang in introducing the culture to the tourists who comes to Palembang. In addition, the next researcher will not only create the booklet of *Perahu Bidar* but also other media promotions like a video about *Perahu Bidar*. Moreover, Future researchers can improve this research to be better, study more sources, references, and do better preparations related to research.
