(Gilang Satria Arista, 2020: 38 Pages)

The goal of this research is to know the way of designing application of Palembang traditional foods. This report is used to find six Palembang traditional foods in the form of application. The methodology of this research is Research and Development from Sukmadinata (2015). This final report modified and developed the Research and Development method into three steps: Preliminary Study, Model Development, and also Final Product Testing. The problem formulation in this report was formulated into a question: how to design the mobile phone application of Palembang traditional food to introduce culinary in Palembang. The research instruments used, first Preliminary Study: literature study, field survey, model draft. Second, model development consisted of limited testing and wider testing. Based on the finding, the writer designed an application of Palembang traditional foods. It is concluded that the application may be useful to guide the tourists and give them clear explanation of Palembang traditional foods.
