## **ABSTRACT**

### **DESIGNING VIDEO SCRIPT OF SEKANAK RIVER AS A NEW TOURISM DESTINATION IN PALEMBANG**

---

(Tri Ambarwati, 2020: 50 pages, 9 figures, 4 tables)

The final report has a title of “Designing Video Script of Sekanak River as a new Tourism Destination in Palembang”. The purpose of this final report is writing video script to promote Sekanak river as the way in promoting Sekanak River in Palembang. The writer used Research and Development modification developed by the Borg and Gall (1983) Research and Development (R&D) method modified by Sukmadinata (2005). This modified method consisted of three steps as the following: preliminary study, model development, and final product testing. The writer collected the data by observation, documentation, and interview. Therefore, the writer started making script and a video. There were 3 experts participated in limited testing, namely linguistics and video design expert and in wider testing, there were two participants. They contributed in this research by giving suggestion and comments to revise the product into final version. The revisions were focused on grammar, punctuation, and conjunction for writing script; and narrator’s voice, lighting, and resolution of the video from the video design expert. Based on findings, the writer found that making script and video to upload it on YouTube is a good way for giving information to public. In developing the script and video, the criticism and suggestions provided by experts were valuable.
